Who What Where

The Funny Drawing Game for Kids

How to Play

Who What Where[™] Jr.

The Funny Drawing Game for Kids

Ages 7 to 12

2 or More Players

COMPONENTS

Who Cards • What Cards • Where Cards • Scoring Tokens
Blank Drawing Pad • Two-Minute Timer

OVERVIEW

Who What Where[™] Jr. is a drawing game for two or more players. To play, players try to draw funny scenes such as "A Giraffe Riding a Bike in a Cave" or "A Dog Playing Soccer on the Moon" and many more. Other players try to guess what was drawn.

GETTING STARTED

Each player takes the following:

- 1) A pen or pencil (not included).
- 2) A blank drawing sheet.
- 3) A Who card, a What card and a Where card. Look at your cards, but don't show the other players.

DRAWING

- 1) Turn over the two-minute timer.
- 2) **ALL** players now try to draw the scene described on their cards. For example, if your cards are "A Bear Playing Soccer on a Spaceship" you might draw a big furry creature kicking a ball inside a rocket.
- 3) Players **MAY NOT** use letters or numbers anywhere in their drawing.
- 4) Players **MAY NOT** speak while drawing.
- 5) When the timer stops, **ALL** players must stop drawing.

✦ TIP: For a quick start, stop reading here and start playing the game. When everyone is done drawing read the rest of the rules.

GUESSING

- 1) The youngest player turns over the timer and holds up his or her drawing. Everyone else guesses aloud what was drawn.
- 2) To make a guess, players should say what they think the scene is. For example, a player might yell out "A Dog Riding a Bike on the Moon."
- 3) Guessing is **NOT** done in turn. Anyone can yell out a guess at any time.
- 4) The artist should tell the players when they get a part of the scene right. (Players may count a guess as correct if it is very close to what is on the card. For example, if the card says "In a School" and someone guesses "In a Classroom" the guess should be counted as correct).
- 5) Players keep guessing until **ALL 3 PARTS** of the Who What Where scene have been guessed correctly **OR THE TIMER RUNS OUT**.

X TIP: If players are stumped, the artist may give hints, make hand gestures, or answer questions. This can be very useful when trying to figure out a difficult scene. Simple yes or no questions – like "Can it fly" or "Have I been to this place" are often good to help figure out what the drawing is.

SCORING

Scoring in Who What Where™ Jr. is **OPTIONAL**. Younger players may want to play without scoring. Older players may want to use scoring, which works as follows:

- 1) If **ALL 3 PARTS** of the scene are guessed correctly **ALL THE PLAYERS** take 1 token. The artist takes 1 additional bonus token.
- 2) **IMPORTANT:** Players **ONLY** take tokens if **ALL 3 PARTS** of the scene are guessed correctly. If any part of the scene is missed, no one takes any tokens.

CONTINUING PLAY

- 1) Play continues to the right with each artist in turn holding up his or her drawing and the other players guessing until all the artists have had a chance to show their drawings.
- 2) Round One is now over and Round Two begins. Players each pick a new set of Who What Where cards, draw a new scene on the back of their drawing sheets, and continue playing in the same manner.

FINISHING THE GAME

- 1) Play three rounds total (for the third round take a new sheet of paper).
- 2) If you're playing with scoring, at the end of three rounds count up your tokens. The player with the most tokens wins!
